Table with columns for question/section and line numbers. Includes sections 8 (LEAD BASED PAINT), 9 (MANUFACTURED AND MOBILE HOMES), and 10 (FULL DISCLOSURE BY SELLERS). Includes signature lines for Dana Bonstrom and Rick Hanson.

If the answer is "Yes" to any asterisked (\*) items, please explain below (use additional sheets if necessary). Please refer to the line number(s) of the question(s).

In ground irrigation system has not been used since 2008.
According to a Tech from Long's Irrigation who inspected the system, the control box seemed to work. He could tell that various zones were being signaled to begin watering.
None of the irrigation zones actually watered.
Since no zones watered and upon further inspection, the Tech found at least one or two soft, depressed locations along the line that brings water from city lines on Larch St. onto the property before it reaches the irrigation manifold. He suspected that there were at least one or two leaks/breaks in the underground water line.
Since nothing was dug up and no repairs have been carried out, we don't know the full extent of the problems with the in-ground irrigation system.
