The basement wall leaked about 1.5 feet in circumference on the basement floor only near the basement door after a hard rain. I dug down and sealed the exterior wall where the problem occured. The retaining wall was replaced at the same time. The sewer line is new from the house to the city main. It was replaced because the trees root damaged the original line. I took out all the trees that created the problem. Since September 2024 there has never been another issue.					240
