

**Angela Schoenthal<aschoenthal@netchd.org>**

Denise Rogers

Good afternoon,

I have attached the results of your sewage search requests to this email.

Unfortunately, we do not have record of a septic permit for this property.

Please note: If the structure was built before the 1970's, it's very likely that it has a septic but was never permitted, as we didn't require septic permits until 1971 for Stevens & Pend Oreille Counties and 1975 for Ferry County.

Thank you,

**Angela Schoenthal**

Lead Administrative Assistant

Northeast Tri County Health District

## **Sewage Permit Record Search Request - Submission #5232**

**Date Submitted: 11/4/2025**

Northeast Tri County Health District (NETCHD) maintains files of permits for completed on-site sewage systems. To obtain information on a permitted septic system, please complete this form. Searches are done on a first come – first serve basis. We will make every attempt to provide the requester with information within five days of receipt of the application. However, we reserve the right to allow for up to two weeks to respond. Because historical records may have brief legal descriptions and lack parcel numbers, please complete all fields below to assist in locating the correct record. Property information that may help you complete the form can be located at the specific county assessor's website.
